The brainchild of two New York-based podiatrists, Dr. Adam Cirilincione and Dr. William Spielfogel, Dr.'s Remedy Enriched Nail Care stands apart for its wellness-inspired approach to maintaining strong, healthy nails—sans harmful chemicals. Our advanced line of multi-tasking lacquers—available in over 50+ foolproof shades—as well as innovative treatment products, boast a proprietary blend including biotin, tea-tree oil, garlic bulb extract, lavender, wheat protein and antioxidant vitamins, to pamper nails with lustrous, lasting color while tackling everyday issues like dryness, discoloration and nail fungus. Every Dr.'s REMEDY product is brimming with natural botanicals and organically sourced actives and are proudly cruelty-free to safeguard your nails and the environment.

RESTORE Ridge Repair

The second eco-friendly base coat in the Dr.'s REMEDY line. Made with materials that are both sustainable and renewable, this fortifying ridge filler helps condition, nourish, and strengthen bumpy nails that might have been neglected.

This nourishing formula enlists the plant-derived extract Pentavitin, to maximize hydration levels while protecting against sensitivity. Then use as a base coat every other manicure to maintain healthy nails.
